

# ADVANCED PROGRAM

Employers can gain control over their healthcare expenses and lower their costs now and for years to come. Choosing a self-funded plan that works for their business will allow more flexibility to build a plan that benefits their employees. Below are some of the highlights of our Advanced Program.

## Minimum Essential Coverage Plan

Under the FreedomCare Advanced Program, all eligible employees are enrolled into a Minimum Essential Coverage (MEC) Plan that provides preventative health and wellness benefits. Employees and their families will receive unlimited access to a 24/7 telemedicine program that will allow them to speak with a doctor from the comfort of their own home without having to pay a co-pay. The plan also includes a discount prescription program that guarantees the lowest price for prescriptions and diabetic supplies.

## Minimum Value Plan

All eligible employees will be offered a Minimum Value Plan (MVP) which meets the minimum value requirements and affordability under the Affordable Care Act (ACA). We have a variety of different plans available with varying deductible amounts allowing employers to build a plan that works for them. Under all of our plans, employees will have access to an extensive network of doctors and specialists in their area and around the country.

## Full Service Administration Services

FreedomCare has made the process of self-insuring effortless. Employers are walked through the process step by step by their Account Coordinator with no lengthy applications needed for enrollment. Our experienced team has assembled everything employers need for their enrollment process, plan management and claims.
