

Thank you for your interest in providing GAP insurance for your clients. At Chelten Benefits Group, we represent over 12 GAP carriers and have tested out many more to provide your groups with the most complete coverage at the lowest cost.

How does it work? Simply get a high deductible major medical quote from your favorite carrier. Pick the most economical bronze plan in your area and we will choose from our list of 12 A rated companies to determine the GAP plan that fits the best with your major medical selection. We can add a GAP plan that mimics their current coverage, gives them more complete coverage, or provide the best plan that matches rates or saves money.

Our GAP RFQ process is simple. We need the following documents/information:

- Agent/Agency Contact Information
- Employee census – Include employee date of birth, and family status (EE, ES, EC, F). Also include spouse and dependent date of birth
- High deductible major medical plan quote
- Current/ Renewal rates and plan descriptions - (We will create a summary that compares the current/renewal plans to our high deductible and GAP combination plan)
- Effective date
- Send your GAP quote request to RFP@CheltenBenefitsGroup.com

We look forward to helping you!
